

metaworld · paired model evaluation · COMPLETE SUBSET

6 planned episodes / method · development split · 6/6 matched initial states

● Jev · jev-1.13.0
■ Chat · gpt-6-astra

Official environment success; custom subset, not a leaderboard score. Dots share task/seed; grey lines pair methods.

* Partial: verified/planned is a lower bound; no CI or complete-score claim. Missing usage = N/A, never zero.

Latency includes network and failed HTTP requests. Wall time differs from simulated time. See source data and figure notes.
